A description of the Company's main corporate governance practices is set out below. The Corporate Governance Statement is current as at 30 September 2022, and has been approved by the Board of directors. The Company's website at www.felixgold.com.au contains a corporate governance section that includes copies of the Company's corporate governance policies.

Principle 1: Lay solid foundations for management and oversight

Recommendation 1.1:

A listed entity should have and disclose a board charter setting out:

- (a) the respective roles and responsibilities of its board and management; and*
- (b) those matters expressly reserved to the board and those delegated to management*

The Board's role is to govern the Company rather than to manage it. In governing the Company, the directors must act in the best interests of the Company as a whole. - assessment of business opportunities of potential benefit to the Company;
- establish and maintain effective and positive relationships with Board members, shareholders, the investment community and other government and business liaisons;
- undertake the role of key company spokesperson;
- ensure statutory, legal and regulatory compliance and comply with corporate policies and standards;
- ensure appropriate risk management practices and policies are in place; and
- select and appoint staff.

This statement of matters reserved for the Board and areas of delegated authority to the Managing Director and senior executives is contained in the Board Charter posted on the Company's website.

Recommendation 1.2:

A listed entity should:

- (a) undertake appropriate checks before appointing a director or senior executive or putting someone forward for election as a director; and*
- (b) provide security holders with all material information in its possession relevant to a decision on whether or not to elect or re-elect a director.*

The Company undertakes checks on any person who is being considered as a director. These checks may include character, experience, education and financial history and background.

All security holder releases will contain material information about any candidate to enable an informed decision to be made on whether or not to elect or re-elect a director.

Recommendation 1.3:

A listed entity should have a written agreement with each director and senior executive setting out the terms of their appointment.

The Managing Director has a formal engagement contract and the non-executive directors have a letter of appointment including a director's interest agreement with respect to disclosure of security interests. The other senior executives also have formal written agreements setting out their terms of appointment.

Recommendation 1.4:

The company secretary of a listed entity should be accountable directly to the board, through the chair, on all matters to do with the proper functioning of the board

The Company Secretary has a direct reporting line to the Board, through the Chair.

Recommendation 1.5:

A listed entity should

- (a) have and disclose a diversity policy;*

STATEMENT OF CORPORATE GOVERNANCE PRACTICES (Continued)

- (b) through its board or a committee of the board set measurable objectives for achieving gender diversity in the composition of its board, senior executives and workforce generally; and*
- (c) disclose in relation to each reporting period:*
 - 1. the measurable objectives set for that period to achieve gender diversity;*
 - 2. the entity's progress towards achieving those objectives; and*
 - 3. either:*
 - A. the respective proportions of men and women on the board, in senior executive positions and across the whole workforce (including how the entity has defined "senior executive" for these purposes); or*
 - B. if the entity is a "relevant employer" under the Workplace Gender Equality Act, the entity's most recent "Gender Equality Indicators", as defined in and published under that Act*

The Company recognises that a talented and diverse workforce is a key competitive advantage. The Company is committed to developing a workplace that promotes diversity. The Company's policy is to recruit and manage on the basis of competence and performance regardless of age, nationality, race, gender, religious beliefs, sexuality, physical ability or cultural background.

The Diversity Policy can be viewed on the Company's website. The Board did not set any measurable objectives to achieve gender diversity given the period that has transpired from admission to the ASX on 28 January 2022.

Recommendation 1.6:

A listed entity should:

- a) have and disclose a process for periodically evaluating the performance of the board, its committees and individual directors; and*
- b) disclose for each reporting period whether a performance evaluation has been undertaken in accordance with that process during or in respect of that period.*

Due to the size of the Board and the nature of its business, it has not been deemed necessary to institute a formal documented performance review program of individuals. The Chairman conducts an informal review during the financial year whereby the performance of the Board as a whole and the individual contributions of each director are discussed. The board considers that at this stage of the Company's development an informal process is appropriate.

Recommendation 1.7:

A listed entity should:

- a) have and disclose a process for evaluating the performance of its senior executives at least once every reporting period; and*
- b) disclose for each reporting period whether a performance evaluation has been undertaken in accordance with that process during or in respect of that period.*

The Board undertakes a review of the senior executives' performance, at least annually, including setting the goals for the coming year and reviewing the achievement of these goals.

Performance has been measured to date by the efficiency and effectiveness of the enhancement of the Company's mineral interest portfolio, the designing and implementation of the exploration and development program and the securing of ongoing funding so as to continue its exploration and development activities. This performance evaluation is not based on specific financial indicators such as earnings or dividends as the Company is at the exploration stage and during this period is expected to incur operating losses.

Due to the size of the Company and the nature of its business, it has not been deemed necessary to institute a formal documented performance review program of senior executives. The Chairman conducts an informal review process whereby he discusses with the Managing Director and the approach toward meeting the short and long term objectives of the Company. The board considers that at this stage of the Company's development an informal process is appropriate.

Principle 2: Structure the board to be effective and add value

Recommendation 2.1:

The board of a listed entity should:

- a) *have a nomination committee which:*
 - 1. *has at least three members, a majority of whom are independent directors; and*
 - 2. *is chaired by an independent director,**and disclose:*
 - 3. *the charter of the committee;*
 - 4. *the members of the committee; and*
 - 5. *as at the end of each reporting period, the number of times the committee met throughout the period and the individual attendances of the members at those meetings; or*
- b) *if it does not have a nomination committee, disclose that fact and the processes it employs to address board succession issues and to ensure that the board has the appropriate balance of skills, knowledge, experience, independence and diversity to enable it to discharge its duties and responsibilities effectively.*

The Company does not have a nomination committee. The Board considers that the Company is not currently of a size, nor are its affairs of such complexity, to justify the formation of separate or special committees at this time. The Board as a whole is able to address the governance aspects of the full scope of the Company's activities and to ensure that it adheres to appropriate ethical standards. In particular, the full Board considers those matters that would usually be the responsibility of a nomination committee. The Board considers that no efficiencies or other benefits would be gained by establishing a separate nomination committee.

Directors are appointed under the terms of the Company's Constitution. Appointments to the Board are based upon merit and against criteria that serves to maintain an appropriate balance of skills, expertise, and experience of the board. The categories considered necessary for this purpose are a blend of accounting and finance, business, technical and administration skills. Casual appointments must stand for election at the next annual general meeting of the Company.

Retirement and rotation of directors are governed by the *Corporations Act 2001* (Cth) and the Constitution of the Company. All directors, with the exception of the Managing Director, serve for a period of three years before they are requested to retire and if eligible offer themselves for re-election.

Recommendation 2.2:

A listed entity should have and disclose a Board skills matrix setting out the mix of skills that the Board currently has or is looking to achieve in its membership.

- c) *the length of service of each director.*

The names, experience and responsibilities of directors of the Company in office at the date of this statement are set out in the latest Company Annual Report (including names of the directors considered to be independent directors and length of service of each director).

Recommendation 2.4:

A majority of the Board of a listed entity should be independent directors.

In assessing whether a director is classified as independent, the Board considers the independence criteria set out in the ASX Corporate Governance Council Recommendation 2.3 and other facts, information and circumstances deemed by the Board to be relevant. Using the ASX Best Practice Recommendations on the assessment of the independence of directors, the Board considers that of a total of three directors, one is independent and therefore the Company does not have a majority of independent directors. The Company considers that each of the directors possesses the skills and experience suitable for building the Company and that the current composition of the Board is appropriate for the Company's current size and operations.

The Board takes the responsibilities of best practice in corporate governance seriously. It is the Board's intention to review its composition on a continual basis as the Company's expands its activities and greater demands and skills amongst directors become necessary.

Recommendation 2.5:

The Chair of the Board of a listed entity should be an independent director and, in particular, should not be the same person as the CEO of the entity.

Recommendation 2.6:

A listed entity should have a program for inducting new directors and for periodically reviewing whether there is a need for existing directors to undertake professional development to maintain the skills and knowledge needed to perform their role as directors effectively.

A new director is provided an induction pack that outlines the expectation of the director and provides a portfolio of the Company's significant policies and procedures. The Code may be amended from time to time as necessary to ensure it reflects the practices necessary to maintain confidence in the Company's integrity and to take into account legal obligations and reasonable expectations of the Company's stakeholders. The Code outlines the responsibility and accountability of Company personnel to report and investigate reports of unethical practices. A copy of the Code is available on the Company's website.

(b) if it does not have an audit committee, disclose that fact and the processes it employs that independently verify and safeguard the integrity of its corporate reporting, including the processes for the appointment and removal of the external auditor and the rotation of the audit engagement partner.

The Company does not have an audit committee. The Board considers that the Company is not currently of a size, nor are its affairs of such complexity, to justify the formation of separate or special committees at this time. The Board as a whole is able to address the governance aspects of the full scope of the Company's activities and to ensure that it adheres to appropriate ethical standards. In particular, the full Board considers those matters that would usually be the responsibility of an audit committee. The Board considers that no efficiencies or other benefits would be gained by establishing a separate audit committee.

The Company requires external auditors to demonstrate quality and independence. The performance of the external auditor is reviewed and applications for tender of external audit services are requested as deemed appropriate, taking into consideration assessment of performance, existing value and tender costs.

It is auditor's policy to rotate audit engagement partners on listed companies at least every 5 years.

processes.

The Company does not have an internal audit function. The Board considers that the Company is not currently of a size, nor are its affairs of such complexity, to justify the formation of an internal audit function at this time. The Board as a whole regularly evaluates and improves the effectiveness of its risk management (refer above) and internal control processes.

Recommendation 7.4:

A listed entity should disclose whether it has any material exposure to environmental or social risks and, if it does, how it manages or intends to manage those risks.

(b) if it does not have a remuneration committee, disclose that fact and the processes it employs for setting the level and composition of remuneration for directors and senior executives and ensuring that such remuneration is appropriate and not excessive.

The Company does not have a remuneration committee. The Board considers that the Company is not currently of a size, nor are its affairs of such complexity to justify the formation of separate or special committees at this time. The Board as a whole is able to address the governance aspects of the full scope of the Company's activities and to ensure that it adheres to appropriate ethical standards. In particular, the full Board considers those matters that would usually be the responsibility of a remuneration committee. The Board considers that no efficiencies or other benefits would be gained by establishing a separate remuneration committee.

Recommendation 8.2:

A listed entity should separately disclose its policies and practices regarding the remuneration of non-executive directors and the remuneration of executive directors and other senior executives.

The Company provides disclosure of all directors and executives remuneration in its annual report.

The remuneration policy of Felix Gold has been designed to align director's objectives with shareholder and business objectives by providing a fixed remuneration component which is assessed on an annual basis in line with market rates. The Board of Felix Gold believes the remuneration policy to be appropriate and effective in its ability to attract and retain the best directors to run and manage the Company. Directors' remuneration is approved by resolutions of the Board. The Board's policy for determining the nature and amount of remuneration for Board members is as follows:

Non-Executive Directors

The Board policy is to remunerate non-executive directors at market rates for comparable companies for time, commitment and responsibilities. Payments to the non-executive directors are reviewed, based on market practice, duties and accountability. The maximum aggregate amount of fees that can be paid to non-executive directors is subject to approval by shareholders at the Annual General Meeting. Fees for non-executive directors are not linked to the performance of the Company. However, to align directors' interests with shareholder interests, the directors are encouraged to hold shares in the Company. Non-executive directors are entitled to receive incentive options and or performance rights (subject to shareholder approval) as it is considered an appropriate method of providing sufficient reward whilst maintaining cash reserves. There is no scheme to provide retirement benefits, other than statutory superannuation, to non-executive directors.

Executives

The senior executives of the Company are the Managing Director and Company Secretary/CFO. The Company is committed to remunerating its senior executives in a manner that is market-competitive and consistent with best practice as well as supporting the interests of shareholders. Consequently, the remuneration of senior executives may be comprised of the following:

- fixed salary or fee that is determined from a review of the market and reflects core performance requirements and expectations;
- participation in any equity incentive scheme with thresholds approved by shareholders;
- statutory superannuation.

By remunerating senior executives through performance and long-term incentive plans in addition to their fixed remuneration, the Company aims to align the interests of senior executives with those of shareholders and increase performance. The value of shares and incentive options were they to be granted to senior executives would be calculated using the Black-Scholes option pricing model.

The objective behind using this remuneration structure is to drive improved performance and thereby increase shareholder value as well as aligning the interests of executives and shareholders.

The Board may use its discretion with respect to the payment of bonuses, incentive share options and other incentive payments.

For details of remuneration paid to directors and officers for the financial year please refer to Company's Annual Report.

Recommendation 8.3:

A listed entity which has an equity-based remuneration scheme should:

- a) have a policy on whether participants are permitted to enter into transactions (whether through the use of derivatives or otherwise) which limit the economic risk of participating in the scheme; and*
- b) disclose that policy or a summary of it.*

The Company does not have an equity-based remuneration scheme which is affected by this recommendation. Recipients of equity-based remuneration (e.g. incentives options) are not permitted to enter into any transactions that would limit the economic risk of options or other unvested entitlements.
